

Oxford University Press

International Humanitarian Law Collection

Explore a selection of free chapters and articles on international humanitarian law and the law of armed conflict from across our academic books, journals and reference works.

All articles and chapters featured are free to access until 31 March 2022.

[Triggering the International Law of Armed Conflict](#)

War

Andrew Clapham examines the threshold for triggering the modern international law of armed conflict and the complications that can arise.

[The Invisible Frames Affecting Wartime Investigations](#)

International Law's Invisible Frames

What are the invisible frames affecting fact-finding processes during armed conflicts? Shiri Krebs examines normative, cognitive, and legal frames shaping the outcomes of wartime investigations.

[Introduction](#)

Arms Control and Disarmament Law

Read the introduction to Stuart Casey-Maslen's *Arms Control and Disarmament Law*, including fundamental terms, its evolution over the last 150 years, and the role of multilateral institutions.
