**Death Rate in Federal Prisons 20 Percent Higher Than Before COVID**

Nearly 300 federal prisoners have died from COVID-19, a count that does not include deaths in privately managed prisons, NPR reports. Bureau of Prisons officials have said since the beginning of the pandemic that they have a plan to keep the situation under control, but an NPR analysis suggests a far different story.

Recently Updated: Guidance on Management of COVID-19 in Correctional/Detention Facilities

The Centers for Disease Control and Prevention (CDC) recently updated their Interim Guidance on Management of Coronavirus Disease 2019 (COVID-19) in Correctional and Detention Facilities.

This document provides guidance specific for correctional and detention facilities regarding COVID-19 and consolidates previous CDC corrections-specific guidance documents. The updated guidance is based on what is currently known about the transmission and severity of COVID-19 as of February 10, 2022.
