Webinar: FY 2022 Matthew Shepard and James Byrd, Jr. Hate Crimes Program

The Matthew Shepard and James Byrd, Jr. Hate Crimes Program supports efforts by state, local, and tribal law enforcement and prosecution agencies and their partners in conducting outreach, educating practitioners and the public, enhancing victim reporting tools, and investigating and prosecuting hate crimes committed on the basis of a victim’s perceived or actual race, color, religion, national origin, sexual orientation, gender, gender identity, or disability.

This webinar will provide details and guidance for potential applicants to the [FY 2022 Matthew Shepard and James Byrd, Jr. Hate Crimes Program](#) solicitation. The presenter will discuss the purpose and goals of this funding opportunity; review its eligibility requirements; and address frequently asked questions.

Campus Sexual Assault Responses (CSAR): Informing Trauma-Informed Policies, Protocols, and Training

Event Date: April 25, 2022, 2:00 pm – 3:15 pm ET

Sexual violence is a significant criminal justice problem with long-term effects for its victims. In particular, sexual assault on or related to college campuses across the United States presents a growing public health and economic burden, starting with significant impacts on academic outcomes.

The long-term goal of this study is to support the development of policies, protocols, training, and interventions to strengthen responses to campus sexual assault (CSA) by campus public safety

agencies in partnership with campus health and wellness centers, as well as with local law enforcement agencies and health and victim service providers.

Based on results from the nationally representative CSAR study conducted from December 2020 to August 2021, the research team sought to ascertain the state of campus preparedness for trauma-informed CSA responses and, in the process, identify promising approaches and service gaps.

■ WEBINAR

[Check out *Shifting the Crime Reporting Paradigm—Lessons Learned from the FBI’s Transition to NIBRS*](#)

Watch the Bureau of Justice Statistics (BJS) and Federal Bureau of Investigation (FBI) discuss their work with data from the FBI’s National Incident-Based Reporting System (NIBRS). The webinar covers—

- the ongoing NIBRS transition and how crime reporting has changed over time
- efforts to examine the quality and completeness of NIBRS data to assess how data quality affects coverage, bias estimates, and the ability to generate national- and state-level estimates of key crime indicators
- lessons learned from working with NIBRS data, including how states can use the data to calculate state-level crime rates, ideas for standardizing the use and display of NIBRS data, and tools to make NIBRS data helpful to both seasoned and novice users.

[Watch *Establishing New Methods for Estimating Crime in the U.S.—The Transition to Incident-Based Crime Reporting through NIBRS*](#)

Hear the Bureau of Justice Statistics (BJS) and Federal Bureau of Investigation (FBI) talk about the National NIBRS Estimation Project (NNEP), their joint effort to establish methods for estimating crime based on data that law enforcement reports to the FBI’s National Incident-Based Reporting System (NIBRS). This webinar covers—

- the NNEP’s work in recent years
- accomplishments to date
- efforts to evaluate NIBRS data

- how data quality and coverage affect crime estimates at the national and state levels key crime indicators to be produced through the new system and when official NIBRS-based crime estimates are expected to be released.
