**NEWLY UPDATED**

## Interactive Data Analyzer

Meet IDA

Brought to you by the  
United States Sentencing Commission

**You've got questions, IDA has updated data!**

The U.S. Sentencing Commission's Interactive Data Analyzer (IDA) is used to explore, customize, and visualize annual federal sentencing data. **IDA now provides data spanning seven years—from fiscal years 2015 through 2021.**

**Features include:**

- **Simple visualization** and navigation of complex datasets ([tutorial video](#));
- Combined annual data and **trend analyses** spanning seven years;
- **Readymade dashboards** for the most common federal crime types;
- **Data filters** by geography, demographics, criminal history, crime and drug types;
- **Cross-sectional variable analysis**; and
- **Export options** that include **formatted tables** and **raw data** ([tutorial video](#)).

## Other Interactive Resources

### Judiciary Sentencing Information (JSIN)

JSIN now offers **additional sentence length measurements** and **filtering options** for common **mandatory minimum penalties**.

Developed specifically with the needs of judges in mind, JSIN provides quick, easy access to sentencing data for similarly situated defendants.

### eLearning Resources

Brush up remotely on guideline application basics by completing these eLearning modules:
