

Penal Reform International / November 2023

Dear Mr. Kerner,

It's a pleasure to connect with you. My name is Tanja Dejanova, and I am the Europe Programme Coordinator at Penal Reform International (PRI) – an international NGO working toward human rights centred, fair and effective criminal justice systems globally.

I am reaching out following a suggestion from Cedric (in cc), who believes you may be in a position to help us reach well-suited candidates for a consultancy

PRI is currently recruiting for as part of our ongoing work under an EU-funded project: [Data MOSAIC](#).

Joining the project team as soon as possible, the consultant will co-lead the **development work for a data collection tool (and relevant guidance)** for use by child detention facilities in the EU to capture and analyse data related to all (incidents of) violence against children in prison, particularly focusing on the technical aspects of the tool and guideline.

I would like to ask you to please share the vacancy with your network and any contacts you feel may be particularly appropriate and interested in the consultancy.

The details are available on our jobs site here: <https://www.penalreform.org/about-us/contact/jobs-vacancy-hiring/> with a **deadline for applications in two weeks, on December 6th**.

Thank you in advance, and please don't hesitate to ask if there are any questions I may be able to help with.

Kind regards,

Tanja

Tanja Dejanova (she/her) / **Programme Coordinator - Europe**
